COMPUTER NETWORK AND INTERNET ACCEPTABLE USE POLICY (STUDENTS)

This document constitutes the School District's Computer Network and Internet Acceptable Use Policy ("Policy"), and applies to all persons who use or otherwise access the Network and/or Internet, whether with District or personal equipment or whether on-site or by wireless or other remote access ("Users").

1. Definitions. For purposes of this Policy,

- the term "Network" shall mean the District's group of computers and peripherals, whether interconnected via cable, wireless and/or any other means whatsoever, all other District software and hardware resources including all Web-based material and all Web hosting, all data, databases and storage media, all standalone, portable and/or borrowed devices, and all provided connectivity between and among Users and from Users to the global Internet, including any and all Instructional Technology Centers or other third-parties providing connectivity and other services, and any and all identifiers, accounts, rights, permissions, and current or future hardware, software, or connectivity owned or managed by the District to which access is provided to Users. Individual system computers, including mobile devices, are considered to be part of the "Network" and are subject to the terms of this Policy even when the User is not attempting to connect to another computer or to the Internet.
- the term "Use" of the Network shall mean any and all actions of a User which create traffic on the Network, including traces or remnants of traffic that pass through District equipment, wiring, wireless networks, or storage devices regardless of any other factor such as passage of time, user deletion, transit of the Network without storage or origination and/or storage on personal equipment.

2. Purpose and Use: The School District is providing Users access to its Network to support and enhance the educational experience of students. Access to system computers and the Network is a privilege, not a right. The District reserves the right to withdraw access at any time for any lawful reason. The District reserves the right to determine what constitutes an improper use of system computers or the Network, and is not limited by the examples of misuse given in this Policy. Users may violate this Policy by evading or circumventing the provisions of the Policy, alone or with others. If Users have any doubt about their obligations under this Policy, including whether a certain activity is permitted, they must consult with the **Superintendent/Principal or Technology Coordinator** to be informed whether or not a use is appropriate.

3. Users Bound by Policy in Accepting Access: The User consents to the terms of this Policy whenever he or she accesses the Network. Users of the Network are bound to the terms of this Policy regardless of whether they received and/or signed a copy of this Policy.

4. **Personal Responsibility:** Users are responsible for their behavior on the Network just as they are in a classroom, school hallway, or other School District property. Each User is responsible for reading and abiding by this Policy and any and all future amendments, which will be made readily available in both electronic and printed form. Anonymous use is not permitted and access (including passwords) may not be shared or transferred. If a User suspects that a password is not secure, he or she must inform the **Superintendent/Principal or Technology Coordinator** immediately. Any improper use of your account, even if you are not the User, is your responsibility.
5. **Reporting Misuse of the Network:** Users must report any misuse of the Network to the **Superintendent/Principal or Technology Coordinator**. “Misuse” means any apparent violation of this Policy or other use which has the intent or effect of harming another person or another person’s property. This includes, but is not limited to, the transmission of sexually explicit images or messages which would constitute bullying, sexual harassment, or a violation of the Student Code of Conduct.
6. **Violating Policy with Personal Equipment:** The use of personal equipment and/or personal Internet access to violate this Policy or to assist another to violate the Policy is prohibited. Exceeding permission (such as abusing access to unfiltered Internet connectivity) is a violation of this Policy. Using private equipment to divert student time and/or attention from scheduled educational, co-curricular, or extracurricular activities, or to divert paid work time from its proper purpose, is always strictly prohibited. Personal equipment used to violate this Policy on school property is subject to search and seizure, reasonably related to the violation, for a period of up to [thirty (30)] days, unless the personal equipment has been provided to law enforcement officials.
7. **Discipline for Violation of Policy:** Violations of each of the provisions of this Policy are considered violations of the Student Code of Conduct, and each violation is a separate infraction. Violations may result in disciplinary action for students up to and including suspension or expulsion and/or referral to law enforcement. The District reserves the right to seek reimbursement of expenses and/or damages arising from violations of this Policy.
8. **Waiver of Privacy:** By accepting Network access, Users waive any and all rights of privacy in connection with their communications over the Network or communications achieved through the use of District equipment or software. Electronic mail (email) and other forms of electronic communication (including instant messaging, social media of all forms, and SMS messages originating from e-mail) are not guaranteed to be private. The District owns all data in the system. Systems managers have access to all messages and other data for purposes of monitoring system functions, maintaining system efficiency, and enforcing computer/network use policies and regulations, District policies, and state and federal laws. Illegal activities or suspected illegal activities may be reported to the authorities.
9. **Confidentiality and Student Information:** Users are responsible for maintaining security of student information and other personally identifiable data that they access, even if they

access such data accidentally or without permission, and for upholding FERPA (20 U.S.C. § 1232g), the student confidentiality law (Ohio Revised Code Section 3319.321), the Ohio Privacy Act (Chapter 1347 of the Ohio Revised Code), and any other applicable privacy policies and regulations. Users are responsible whether such data is downloaded from the Network to their computer screen, transmitted by e-mail, stored on a flash drive, portable device or laptop, copied by handwriting or by any or all other devices, forms of storage or methods. Negligence with respect to protecting the confidentiality of such data will be considered a violation of this Policy whether or not such negligence results in identity theft or other harm. Users shall not engage or attempt to engage in unauthorized computer access, including but not limited to cyber-attacks, hacks, circumvention of password-protected content, and/or access to inappropriate material, including without limitation personally identifiable student information.

10. **District-Owned Equipment:** Desktop computers, laptops, portable devices, and other equipment belonging to the District are your responsibility. Any misuse, failure, damage or loss involving such equipment must be reported to the **Superintendent/Principal or Technology Coordinator**. The use of other providers of such functionality or storage (such as Google or Yahoo) through the Network is prohibited. Outside e-mail systems may be used for personal e-mail, subject to the loss of privacy rights as stated in this Policy. Uses that mislead others or violate the standards of academic or personal integrity, including but not limited to plagiarism, disseminating untrue information about individuals or groups, or using another's password or some other user identifier. Creating, possessing, copying, viewing, transmitting, downloading, uploading materials that cause or are likely to cause a substantial disruption of the educational environment, regardless of whether the User uses the Network or a personal or District-owned device.

12. **Specific Limits on Communication Over the District Network:**

- ***Expressing Opinion:*** The Network has been created at public expense and exists for purposes relating to education and administration. It does not exist to serve as a personal blog for the expression of opinions or as a public forum of any kind. It is not the intention of the District to allow the public, staff, or students to use the Network, including the web hosting or linking ability, for purposes of expressions of private opinions, or to support private or public causes or external organizations.
- ***Large Group Mailings:*** The sending of messages to more persons than is necessary for educational or school business purposes is a misuse of system resources and User time. Large group mailings, such as "all district" or "all building" are reserved for administrative use, subject to any exceptions which may be developed by the Administration or the System Administrator. Users may not send e-mails to more than ten (10) recipients in a single message, subject to exceptions developed by the Administration or the System Administrator. The System Administrator may also develop specific limitations on the use of graphics, the size, number, and type of attachments, and the overall size of e-mail messages sent on the system. The use of multiple messages, non-system addresses, or other techniques to circumvent these limitations is strictly prohibited.

- **Electronic Signatures:** Users shall not legally verify documents or use “electronic signatures” in any way unless they have been trained in an approved verification or signature system approved by the Administration. Users asked to legally verify or electronically sign documents should report the situation to **Superintendent/Principal or Technology Coordinator**.
13. **System Security and Integrity:** The District reserves the right to suspend operations of the Network, in whole or in part, at any time for reasons of maintaining data security and integrity or any other lawful reason. The District reserves the right to block or filter any web sites, social networking sites, e-mail addresses, applications, servers or Internet domains which it, in its sole judgment, has determined to present a risk of exposing students or employees to sexually explicit or otherwise inappropriate content, exposing the system to undue risk of compromise from the standpoint of security or functionality, or creating a substantial likelihood of disruption of educational or co-curricular, or extracurricular activities.
14. **Filters:** The School will have the following in continuous operation, with respect to any computers belonging to the School and having access to the Internet:

Dear Parent/ Guardian,

Every September, your child completes beginning of year diagnostic testing to identify strengths and areas of improvement in Reading. The state requires all schools, through the Third Grade Reading Guarantee, to identify students that are "off track" and not meeting minimum requirements; the school then identifies and implements individualized interventions to help each student gain the reading skills needed through a Reading Improvement and Monitoring Plan (RIMP). The reading plan (RIMP) will continue throughout the school year and through third grade to make sure your child's reading is improving. Plans will be updated regularly. You will be informed of your child's progress each year.

Please sign below to acknowledge that you understand that if your child is below grade level for reading they will be receiving intervention during the school year and that the Reading Improvement and Monitoring Plan (RIMP) will be in effect until the end of third grade or your child tests at or above grade level. If you have any further questions please contact your child's teacher.

Sincerely,

Ms. Payich
Director

Parent's Right To Know (Properly Certified)

Dear Parent/Guardian:

You have the right to know about the teaching qualifications of your child's classroom teacher in a school receiving Title I funds. The federal Every Child Succeeds Act (ESSA) requires that any local school district receiving Title I funds must notify parents that they may ask about the professional qualifications of their child's classroom teacher.

These qualifications include:

1. Whether the teacher has met the Ohio teacher licensing criteria for the grade level and subject areas in which the teacher provides your child instruction.
2. Whether the teacher is teaching under emergency or temporary status that waives state licensing requirements.
3. The undergraduate degree major of the teacher and any other graduate degree or certification (such as National Board Certification) held by the teacher and the field of discipline of certification or degree.
4. Whether your child is provided services by instructional paraprofessionals and, if so, their qualifications.

You may ask for the information by returning this letter to the address listed above. Or you may email your request to rsmith@yvs.k12.oh.us. Be sure to give the following information with your request:
